WELCOME

What started as a nights and weekends passion project for our designers in 2007 has now grown into a vibrant downtown filled with beautiful architecture, rich interiors, clever brick usage and an impressive population of happy minifigures. And what better way to celebrate 15 years of Modular Building than by creating one of the models most-often requested by fans.

The terrace is built using reflected triangle geometry. Combined with the Hotel building itself, this creates Pythagorean triangles that align perfectly with the LEGO® grid system.

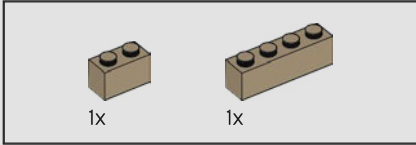

La terrasse est construite à l'aide du principe du triangle réfléchi. Avec la structure de l'hôtel, des triangles pythagoriciens se forment et s'alignent parfaitement avec le système de grille LEGO®.

180 La terraza se construye aplicando geometría de triángulos invertidos. En combinación con el propio edificio del hotel, ello da lugar a triángulos pitagóricos que encajan a la perfección con la retícula del sistema LEGO®.
