INTRODUCED BY POPULAR DEMAND

We are beyond excited to present the first ever LEGO® Star Wars™ Ultimate Collector Series version of Luke Skywalker's X-34 Landspeeder.

Speeders are a familiar sight throughout the *Star Wars* galaxy, and Luke's X-34 model is the first we encounter in *A New Hope*. Our team has seen so many great fan-built LEGO landspeeders over the years. This model has been in high demand for a long time and our designers developed new elements, building techniques and colors to create the most authentic-looking replica possible, right down to the turbine wiring and cockpit details. And, at this scale, it almost feels as if you could just jump right in and speed off on your own galactic adventures!

Enjoy building!

A stylized, handwritten signature in black ink.

Jens Kronvold Frederiksen

Design Director & Creative Lead,
LEGO® Star Wars™

LANCÉ À LA DEMANDE GÉNÉRALE

Nous sommes emballés à l'idée de présenter la toute première version du Landspeeder X-34 de Luke Skywalker de la série de collection suprême LEGO® *Star Wars*™.

Les speeders sont monnaie courante dans la galaxie *Star Wars*, et le modèle X-34 de Luke est le premier que nous découvrons dans *Un nouvel espoir*. Notre équipe a vu tant de superbes landspeeders LEGO construits par des passionnés de la saga au fil des ans. Ce modèle est attendu depuis longtemps, et nos concepteurs ont développé de nouveaux éléments ainsi que de nouvelles techniques de construction et couleurs pour créer la réplique la plus authentique possible, jusqu'au câblage de la turbine et aux détails de l'habitacle. Et, à cette échelle, on a presque l'impression de pouvoir sauter à bord et filer à toute vitesse vers ses propres aventures galactiques !

Bonne construction !

Jens Kronvold Frederiksen
Directeur de la création,
LEGO® *Star Wars*™

PORQUE EL PÚBLICO LO PIDIÓ...

Estamos más que emocionados de presentar la primera versión LEGO® *Star Wars*™ Ultimate Collector Series del landspeeder X-34 de Luke Skywalker.

Es muy común encontrar speeders por toda la galaxia de *Star Wars*, y el modelo X-34 de Luke es el primero que aparece en *Una Nueva Esperanza*. Nuestro equipo ha visto una gran cantidad de fantásticos landspeeders LEGO construidos por fans a lo largo de muchos años. Por un largo tiempo, el público ha solicitado con insistencia este modelo. Nuestros diseñadores desarrollaron nuevos elementos, técnicas de construcción y colores para crear la réplica más auténtica posible, llegando a recrear incluso el cableado de las turbinas y detalles de la cabina. Y, con semejante escala, ¡casi podríamos pensar en subir al vehículo y lanzarnos a toda velocidad a vivir nuestras propias aventuras galácticas!

¡Que disfrutes la construcción!

Jens Kronvold Frederiksen
Director creativo,
LEGO® *Star Wars*™

**“LOOK AT THIS.
EVER SINCE THE
XP-38 CAME OUT,
THEY JUST AREN’T
IN DEMAND.”**

While Luke’s speeder is in high demand in this galaxy, we can see why his old sand- and sun-beaten version might be a tough sell on Tatooine, with newer models available on the market. It clearly has more than a few kilometers on its repulsor lift engine, and the missing port turbine cowling might leave the air-cooled thrust turbines vulnerable to Tatooine sandstorms. Fortunately, the sketchy traders in Mos Eisley seem willing to buy anything that moves, and even things that don’t. And, as Luke’s main source of transportation between his home and the Tosche

Station and Anchorhead outposts, his speeder is at least in decent working condition. With the Lars homestead burned to the ground, Luke has no qualms about selling it if it can get him enough cash to hitch a ride to Alderaan with Obi-Wan Kenobi.

Different X-34 Landspeeder models were created for the production of *A New Hope*. A life-size prop version was based on a car the actors could drive. A smaller scale model was used for special effects.

« C'EST LAMENTABLE. DEPUIS QUE LE XP-38 EST SORTI, MON SPEEDER NE VAUT PLUS RIEN. »

Alors que le speeder de Luke est très convoité dans cette galaxie, on peut comprendre pourquoi sa vieille version, rongée par le sable et le soleil, pourrait être difficile à vendre sur Tatooine, où des modèles plus récents sont disponibles sur le marché. Il a manifestement parcouru bien des kilomètres avec son moteur à répulsion, et l'absence du capot de la turbine bâbord pourrait rendre les turbines de poussée refroidies par air vulnérables aux tempêtes de sable de Tatooine. Heureusement, les commerçants de Mos Eisley semblent prêts à acheter tout ce qui bouge, et même ce qui ne bouge pas. Et, en tant que principal moyen de transport de Luke entre sa

“MIRA ESTO. DESDE QUE SALIÓ EL XP-38, NADIE LOS QUIERE”

Si bien hay una alta demanda de speeders como el de Luke en esta galaxia, podemos ver que su unidad, bastante desgastada por el sol y la arena, podría ser difícil de vender en Tatooine, especialmente cuando hay modelos nuevos en el mercado. Es evidente que su motor de repulsión ha recorrido muchísimos kilómetros, y las turbinas de impulso enfriadas por aire podrían sufrir daños en las tormentas de arena de Tatooine sin la protección de la cubierta de babor. Por fortuna, los desinformados comerciantes de Mos Eisley parecen dispuestos a comprar cualquier cosa que se mueva, incluso las que no lo hacen. Considerando que es el principal medio que utiliza Luke para trasladarse

maison et les avant-postes de la station Tosche et d'Anchorhead, le speeder est au moins en bon état de marche. La ferme des Lars ayant été réduite en cendres, Luke n'a aucun remord à vendre son speeder si cela lui permet d'avoir assez d'argent pour atteindre Alderaan en compagnie d'Obi-Wan Kenobi.

Différents modèles de Landspeeder X-34 ont été créés pour la production de *Un nouvel espoir*. Une version grandeur nature servant d'accessoire était basée sur une voiture que les acteurs pouvaient conduire. Un modèle à plus petite échelle a été utilisé pour les effets spéciaux.

entre su hogar, la Estación Tosche y la ciudad de Anchorhead, su speeder se encuentra en condiciones lo suficientemente buenas como para funcionar. Y con la vivienda de Lars calcinada hasta los cimientos, Luke no tiene inconveniente en venderlo si puede obtener el dinero suficiente para ir a Alderaan en compañía de Obi-Wan Kenobi.

Se fabricaron diferentes modelos del landspeeder X-34 para la grabación de *Una Nueva Esperanza*. Había una versión de utilería a escala real que los actores podían conducir construida a partir de un auto. Se utilizó un modelo a una escala menor para los efectos especiales.

MEET THE MODEL DESIGNER

César Carvalhosa Soares
LEGO® Star Wars™ Designer

Luke's X-34 Landspeeder is one of the most recognizable vehicles in the *Star Wars*™ universe. It is with the landspeeder that Luke, Obi-Wan Kenobi, C-3PO and R2-D2 travel to Mos Eisley, where they meet Han Solo and Chewbacca for the first time and the adventure really begins!

As a *Star Wars* superfan, I was thrilled to bring the speeder to life, and this scale allowed us to add a bunch of super cool details, new elements and fun new building techniques. The big windshield, vital for protecting the speeder's driver and passenger from the intense Tatooine winds, is a new element designed specifically for this model. The first iteration of the speeder had a sand color scheme, but the nougat color gave it a much more realistically weather-beaten look. In the movie, the speeder has a powerful thruster that lets it travel at great speed, hovering up to 1 meter (just over 3 feet) above ground. I hope this model will look great "hovering" above your shelf or desk!

César Carvalhosa Soares
LEGO® *Star Wars*™ Designer

RENCONTRE AVEC LE CONCEPTEUR DU MODÈLE

Le Landspeeder X-34 de Luke est l'un des véhicules les plus reconnaissables de l'univers *Star Wars*™. C'est à bord du landspeeder que Luke, Obi-Wan Kenobi, C-3PO et R2-D2 se rendent à Mos Eisley, où ils rencontrent Han Solo et Chewbacca pour la première fois et où l'aventure prend son envol !

En tant que grand amateur de *Star Wars*, j'ai été ravi de donner vie au speeder, et cette échelle nous a permis d'ajouter une pléthore de détails, de nouveaux éléments et de nouvelles techniques de construction amusantes. Le grand pare-brise, indispensable pour protéger le pilote et le passager du speeder des vents intenses de Tatooine, est un nouvel élément conçu spécifiquement pour ce modèle. La première version du speeder avait une couleur sable, mais la couleur nougat lui donne un aspect beaucoup plus réaliste et usé par le temps. Dans le film, le speeder est équipé d'un puissant propulseur qui lui permet de se déplacer à grande vitesse, lévitant jusqu'à 1 mètre au-dessus du sol. J'espère que ce modèle aura fière allure « en lévitation » au-dessus de votre étagère ou de votre bureau !

César Carvalhosa Soares
Concepteur LEGO® *Star Wars*™

CONOCE AL DISEÑADOR DEL MODELO

El landspeeder X-34 de Luke es uno de los vehículos más icónicos del universo *Star Wars*™. Este es el landspeeder en el que Luke, Obi-Wan Kenobi, C-3PO y R2-D2 viajan a Mos Eisley, donde conocen a Han Solo y Chewbacca por primera vez, ¡y donde la aventura comienza de verdad!

Como superfanático de *Star Wars*, me emocionó muchísimo dar vida al speeder. Su escala nos permitió añadir un montón de detalles supergeniales, nuevos elementos y divertidas técnicas de construcción nunca antes utilizadas. El enorme parabrisas, vital para proteger al conductor y el pasajero del speeder de los intensos vientos de Tatooine, es un nuevo elemento diseñado específicamente para este modelo. La primera iteración del speeder tenía un esquema de colores basado en tonalidades de arena, pero el color caramelo le dio mucho más realismo a su apariencia desgastada por el paso del tiempo y los fenómenos meteorológicos. En la película, el speeder cuenta con un poderoso propulsor que le permite viajar a gran velocidad flotando solo 1 m por encima del suelo. ¡Espero que este modelo se vea genial "flotando" sobre tu estante o escritorio!

César Carvalhosa Soares
Diseñador de LEGO® *Star Wars*™

A SOROSUUB CORPORATION CLASSIC

With large-scale models like this comes the freedom to incorporate more intricate and authentic details.

- The cockpit is fitted with the design features of its movie counterpart, like right-hand driving, stick shift and detailed dashboard and display.
- Each thrust turbine has its own characteristics. The center turbine's distinct color pattern shows signs of multiple repairs with random scrap parts.
- How the port turbine lost its cowling we may never know. Luke is a skilled pilot, but with a maximum speed of 250 km/h (155.3 mph), the speeder has likely seen a mid-air collision or two in its time.
- The display plaque includes technical specifications, a Luke Skywalker minifigure and an all-new C-3PO minifigure unique to this set.

UN CLASSIQUE DE LA CORPORATION SOROSUUB

Avec des modèles à grande échelle comme celui-ci, il est possible d'incorporer des détails plus complexes et plus authentiques.

- L'habitacle reprend les caractéristiques de son homologue cinématographique, comme la conduite à droite, le levier de vitesse, ainsi que le tableau de bord et le système détaillés.
- Chaque turbine de poussée possède ses propres caractéristiques. Les coloris distincts de la turbine centrale montrent des signes de réparations multiples avec des pièces de ferraille aléatoires. Nous ne saurons probablement jamais comment la turbine de bâbord a perdu son capot. Luke est un pilote expérimenté, mais avec une vitesse maximale de 250 km/h, le speeder a probablement une ou deux collisions à son actif.
- Le socle comporte une plaque avec des spécifications techniques, une figurine de Luke Skywalker et une toute nouvelle figurine de C-3PO unique à cet ensemble.

UN CLÁSICO DE SOROSUUB CORPORATION

Los modelos de mayor escala como este nos dan la libertad de incorporar detalles más elaborados y auténticos.

- El diseño de la cabina incorpora las mismas características que tiene su contraparte de la película, como el asiento del conductor a la derecha, la palanca de cambios, un detallado tablero y una pantalla.
- Cada turbina de impulso tiene características propias. El singular patrón de colores de la turbina central muestra signos de múltiples reparaciones con todo tipo de piezas de desecho. Quizá jamás sepamos cómo se perdió la cubierta de la turbina de babor. No obstante que Luke es un piloto muy hábil, el hecho de que tenga una velocidad máxima de 250 km/h hace que sea muy probable que el speeder participara en una o dos colisiones en el aire desde su fabricación.
- La placa de información incluye especificaciones técnicas. También hay una minifigura de Luke Skywalker y una de C-3PO totalmente nueva que no encontrarás en ningún otro set.
