INVISIBLE HAND™

STAR WARS

WE'RE STILL FLYING AN ENTIRE SHIP

"We're so excited to land this model safely in our Starship Collection, as part of our LEGO® Star Wars™ 25th anniversary. Of all the spectacular *Star Wars* starship scenes in the saga, few compare with the destruction of General Grievous' behemoth, the *Invisible Hand*, in *Revenge of the Sith*. As his kidnapping of Supreme Chancellor Palpatine is thwarted by the Jedi, and his

starship is under enemy attack, Grievous launches the escape pods to save his own droid skin, leaving Anakin Skywalker and Obi-Wan Kenobi to pilot the remaining half of the wreck, plummeting to a monumental crash-landing back on Coruscant. It's a breathtaking demonstration of Anakin's pilot skills – and use of the Force.

Enjoy building!"

Jens Kronvold Frederiksen
Creative Director, LEGO® Star Wars™

AN ICONIC SEPARATIST FLAGSHIP

Manufactured by Free Dac Volunteers Engineering, the formidable *Providence*-class carrier/destroyer is the flagship of Separatist droid army commander General Grievous and his master, Count Dooku. At 1,088 metres (3,569 feet) long, 347 metres (1,138 feet) high, and 198 metres (649 feet) wide, the *Invisible Hand* easily

accommodates a crew of 600, 1.5 million battle droids, and more than 400 ground assault vehicles. When the Battle of Coruscant leaves its hull and critical compartments dangerously vulnerable, its re-entry into the atmosphere ultimately causes the starship to break in two.

SPRING THE TRAP

The characteristic torpedo-shaped hull is thick and solid for a Separatist destroyer. Only a few living passengers travel onboard, so the need for viewing portals is limited, and a dorsal sensor and communications masts allow General Grievous to direct his droid army from the

command bridge. Both the interior and exterior design of this model incorporate authentic details and features. The massive main hangar spans the width of the vessel, with transparent panels that let you see through the model – and maybe spot a few Easter eggs.

These two 1:1 bricks represent Anakin Skywalker and Obi-Wan Kenobi's Eta-2 Actis-class Jedi Interceptors after they breach the *Invisible Hand*'s shields and land in the hangar bay.

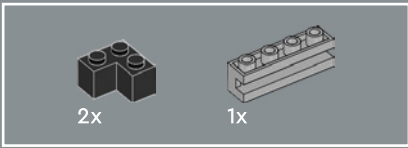

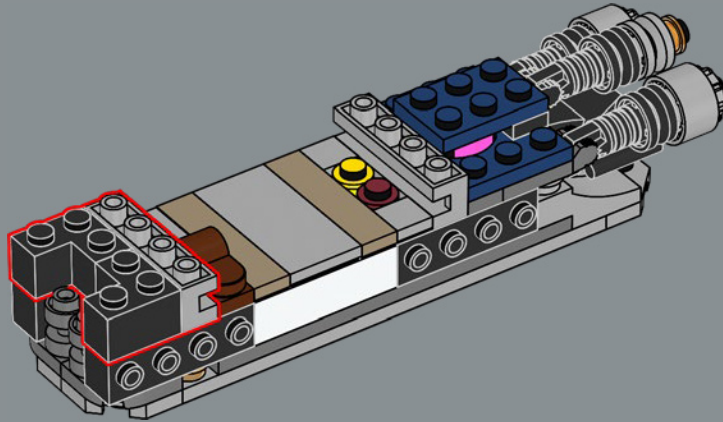

18

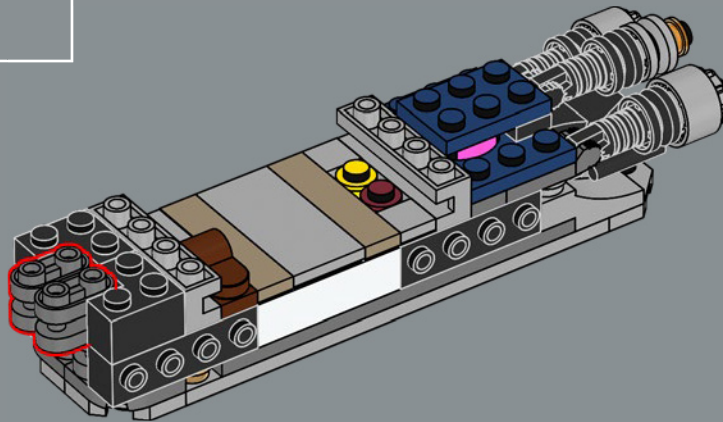

To highlight the scale of this model, this brown piece represents the MTT (Multi-Troop Transport) seen in the background of the hangar scene in *Revenge of the Sith*. These transports each hold over a hundred battle droids!
